## **Relevant Work Experience**

I have been a tour manager/photographer/videographer for musicians since 2009 until present. Aside from the media aspect of touring, I take care of all the on the road duties and organising, tour books, accommodation, vehicle and gear hire (pick-up and delivery), schedule for entire band and crew, settling cash and invoicing with bands, promoters, venues and records labels.

Another big aspect of being a tour manager is taking on most of the driving duties, so I have driven around Australia a fair few times in the last 11 years of

touring, either in a 12-seater hiace van or a 3-tone truck for most of them.

As a tour manager I am very aware of the importance of, timekeeping communication and diligence in all aspects of your work, to ensure a job is done efficiently and effectively. This is why I pride myself in being organised, punctual and have a strong work ethic to ensure I get the job done to the best of my ability in the time frame required.

Thank you for your time

And

Kind Regards,

**Oliver Rudloff**
