27 Brownell Dve  
Byron Bay, NSW 2481

Quick Intro...

G'day, just a quick one while I've got you - I'm super, super keen to work in the film industry. I've got a handful of friends who've been getting involved recently with the 9 Perfect Strangers set and it sounds like it's right up my alley.

As you can see I've had plenty of different jobs over the years and I feel that I can bring a really interesting repertoire of skills to the table. I think a gig in a film production arts dept might be the only place where such a broad set of experience would be appreciated and dove tail nicely into what's required. I'm ready to learn fast and work hard, so I'm throwing my hat in the ring and really hoping for an email or a follow up conversation where we could talk further. Please check out my CV and if you need any more references or further info, please just let me know.

Kind regards,

Gus Goozée

---
