Digital Media

Envirotech

## VIDEO PRODUCTION

---

February - May 2020

Camera / Director / Editor

The Show – Tex Perkins

Australian musician and celebrity Tex Perkins created an ‘iso’ show for YouTube, for which I worked as camera operator, director and editor.

July 2017 - December 2018

Video Producer / Editor and Director

Envirotech School

Responsible for the production of digital content for the company's marketing: developing scripts and organizing all aspects of production including actors, interviewees, direction, filming and editing.

September 2008 to 2016

Video Producer / Editor and Director

Piracema Films

Project Management / Client Relationship

Senior Producer / Director

Director of Photography / Camera Operator

Advanced Editing / Post-Production

Sound Design / Engineering

Productions include documentaries, musicals, short films and TV shows, and covered all aspects of video production: process since creation, client liaison, script development, direction, editing, camera operator, audio, assembling team and coordinating logistics. Experience with different cameras and lenses, aerial filming and lighting. Experience in working with short deadlines, low budgets and solving technical problems.

January 2007 - September 2008

Video Producer / Editor

Seven Films -

Advanced Editing / Post-Production – Production house specializing in television commercials where I worked mostly as a video editor but with extensive exposure to other aspects of production on film sets including finishing, coloring and production processes.

October 2005 - January 2007

Editor / Final Cut Pro Operator - Internship

Na Moral TV

Advanced Editing / Television Show Production – This internship offered experience in intensive video editing of a daily 10-minute program for open TV. I acquired the necessary speed and emotional control to work on short deadlines and under high pressure. Editing already in online equipment but still filmed on tapes.

May 2003 - October 2005

Trainee Editor

Neo

Wedding Videos – edit and film on tape. Working for this very busy wedding photography company I learned the principles of lenses, light, cameras and editing.
